

NAME _____ DATE _____

TALLY CHARTS

There are some balloons. Organize the data and answer the questions.

Example:

Purple	
Yellow	
Orange	

How many purple balloons are there?

There are 6 purple balloons.

How many yellow balloons are there?

There are 5 yellow balloons.

How many orange balloons are there?

There are 7 orange balloons.

Which color balloons are less? Yellow

Write a number sentence that tells the total number of balloons.

$6 + 5 + 7 = 11 + 7 = 18$
