PROBLEM SOLVING QUESTIONS

Solve using words, math drawing and number.

Example:

Jesse has some bands. She has 6 red bands, 3 purple bands and 7 green bands. How many bands Jesse has mall?
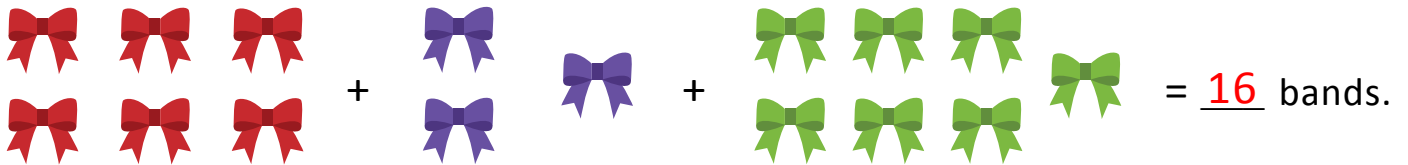

Words:

Jesse has _6_ red bands.

Jesse has _3_ purple bands.

Jesse has _7_ green bands.

Altogether Jesse has _6_ + _3_ + _7_ = _16_ bands.

Math drawings:

= _16_ bands.

Jesse has 16 bands.

Numbers:

_6_ + _3_ + _7_ = _16_.

Jesse has 16 bands.

----
