DICTIONARY SKILLS ALPHABETICAL ORDER (BASED ON THIRD LETTER)

Dictionary serves as the best reference material to know the correct meaning, pronunciation and spelling of a word. It also tells the details such as parts of speech, opposite, plural, origin and usage etc... of word. The words in a dictionary are arranged in alphabetical order based on first, second, third and other letters. The words noted on the top of a page in a dictionary are called guide words. They tell us about the list of words present in between the first and last words noted on that particular page. Referring a dictionary improves our knowledge about words and their usage. This interesting and thrilling hobby has a long way in the promotion of language skills.

The first two letters are common for all words given in each row. Look at the third letter and indicate the sequence of words alphabetically through numbers. Use a beginner dictionary and verify your answers.

Example:

Ant (1), Animal (2), Anchor (3), Anger (4).

Answer: 3, 4, 2, 1.
