ATTRIBUTES OF GEOMETRY SHAPES

Use attributes to identify and draw different quadrilaterals including rectangles, rhombuses, parallelograms and trapezoids.

1) Prepare 10 centimetre scale with a thick paper and draw lines and numbers.

1	2	3	4	5	6	7	8	9	10
cm	cm	cm	cm	cm	cm	cm	cm	cm	cm

Take 15 slate pencils in different sizes and measure its length and record in your note book (nearest centimetres).

Slate pencils	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
Its lengths (centimetres)															

2) Observe the 15 centimetre scale.

1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
cm	cm	cm	cm	cm	cm	cm	cm	cm	cm	cm	cm	cm	cm	cm

Using the measurement scale find length of the different pens collected from your class mates.

Collected pens	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
Its lengths (centimetres)
