

NAME _____ DATE _____

MEASUREMENT AND ESTIMATION

Measure various objects using centimeter rulers and meter sticks.

- 1) Name 5 things in your home that you would measure in meters. Estimate their length. Remember the length from a doorknob to the floor is about 1 meter.

| Item | Estimated length |
|---------------------------------------|------------------|
| a) The length of the drawing room. | ___ meters. |
| b) The length of T. V. in the room. | ___ meter. |
| c) The length (height) of the window. | ___ meters. |
| d) The length of the cup board. | ___ meters. |
| e) The length of the dining table. | ___ meters. |
