## MEASUREMENTS OF DIFFERENT OBJECTS

Choose the units to measure objects.

- 1) Name 4 things in the class room. Circle which unit you would use to measure that item and record the measurement in the chart.

Objects	Length of the object
Wooden duster	Inches / Feet / Yards
Length of the black board	Inches / Feet / Yards
Piece of chalk	Inches / Feet / Yards
Height of the wall (or) length	Inches / Feet / Yards

Billy measures his pencil. He tells his teacher it is 7 feet long. Use the back of this paper to explain how you know that Billy is incorrect and how he can change his answer to be correct.

**Answer:**

---

---
