COUNTING AND TALLY WITH COINS

Use different strategies to make \$1 or make change from \$1.

1) Solve using the arrow way and number bond.

a) $79 \text{ ¢} + \underline{21 \text{ ¢}} = 100 \text{ ¢}$.

Solution:

By arrow way:

$$79 \xrightarrow{+1} 80 \xrightarrow{+20} 100$$

(OR)

$$100 \xrightarrow{-80} \underline{20} \xrightarrow{+1} \underline{21}$$

By number bond:

b) $64 \text{ ¢} + \underline{\quad} = 100 \text{ ¢}$.

Solution:

By arrow way:

$$64 \xrightarrow{\quad} 70 \xrightarrow{\quad} 100$$

(OR)

$$100 \xrightarrow{-60} 40 \xrightarrow{-4} \underline{\quad}$$

By number bond:

c) $100 \text{ ¢} - 30 \text{ ¢} = \underline{\quad}$.

Solution:

By arrow way:

$$100 \xrightarrow{\quad} 90 \xrightarrow{\quad} 80 \xrightarrow{\quad} 70$$

By number bond:
