SUBTRACTION WORD PROBLEMS

Read the word problem. Draw and label. Write a number sentence and a statement that matches the story. Draw a box around the solution in the number sentence.

- 1) Alice bought 13 pieces of stationary. If she bought 8 pens, how many pencils Alice bought?

- 2) Bob made 13 orange juices. He also made some lemon juices. If he made 17 juices altogether, how many lemon juices Bob made?

- 3) Oliva has 11 color pencils. If she gave 3 color pencils to her brother then how any color pencils are left with her?
