ADDING THREE NUMBERS

Circle the addends that make 10 and solve.

Examples:

a) $3 + \boxed{7} + \boxed{3} = \underline{13}$

b) $2 + \boxed{9} + \boxed{1} = \underline{12}$

1) $5 + 5 + 6 = \underline{\ \ }$

2) $2 + 8 + 1 = \underline{\ \ }$

3) $6 + 7 + 4 = \underline{\ \ }$

4) $3 + 7 + 4 = \underline{\ \ }$

5) $2 + 2 + 8 = \underline{\ \ }$

6) $5 + 8 + 5 = \underline{\ \ }$

7) $1 + 9 + 5 = \underline{\ \ }$

8) $8 + 2 + 9 = \underline{\ \ }$

9) $5 + 5 + 3 = \underline{\ \ }$

10) $7 + 3 + 1 = \underline{\ \ }$

11) $6 + 4 + 6 = \underline{\ \ }$

12) $5 + 5 + 7 = \underline{\ \ }$

13) $3 + 7 + 5 = \underline{\ \ }$

14) $4 + 6 + 8 = \underline{\ \ }$

15) $2 + 4 + 8 = \underline{\ \ }$

16) $5 + 2 + 5 = \underline{\ \ }$

17) $8 + 2 + 3 = \underline{\ \ }$

18) $4 + 6 + 5 = \underline{\ \ }$
