

NAME \_\_\_\_\_

DATE \_\_\_\_\_

## ADJECTIVES (USE ADJECTIVES)

An adjective describes / modifies a noun or pronoun. Usually it comes before a noun it qualifies or points out. Adjectives are used to make sentences more interesting, vivid and colorful. They add something to the meaning of nouns / pronouns. Speaking, reading and writing of English will remain dull without adjectives. Usually they are answers to questions like: What kind? How many? Which one? etc..... **Examples:** Clever fox, Some rice, Blue book.

Choose the adjective that makes the sentence meaningful and write it in the space given.

**Example:**

We have to chop down the green grass in the playground.

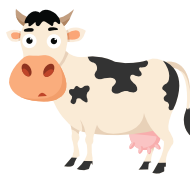

- a) white                      b) green ✓                      c) red                      d) black
