## COMPOSITE SHAPES & FRACTION CONCEPTS

Combine shapes to create composite shapes. Create a new shape from composite shapes.

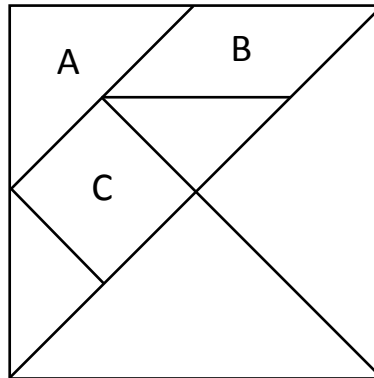

**Example:**

Identify each polygon labelled in the tangram as precisely as possible in the space below.

A) Triangle.

B) Parallelogram.

C) Square.

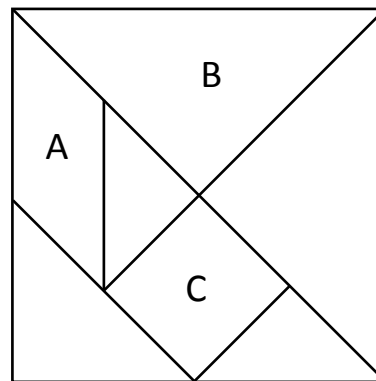

1) Identify each polygon labelled in the tangram as precisely as possible in the space below.

A) \_\_\_\_\_.

B) \_\_\_\_\_.

C) \_\_\_\_\_.

2) Identify each polygon labelled in the tangram as precisely as possible in the space below.

A) \_\_\_\_\_.

B) \_\_\_\_\_.

C) \_\_\_\_\_.

D) \_\_\_\_\_.
