

NAME _____ DATE _____

MEASUREMENTS OF DIFFERENT OBJECTS

Measure an item twice using different length units and compare relative measurement to unit size.

- 1) a) Takesa drew a line 9 centimeters long. Damani drew a line 4 inches long. Takesa says her line is longer than Damani's because 9 is greater than 4. Explain why Takesa might be wrong.

Takesa: ___ centimeters.

Damani: ___ inches.

Explanation:

1. b) Measure the lines in inches and centimeters.

i)

9 centimeters.

ii)

4 Inches.
