# PROBLEM SOLVING QUESTIONS

**Draw and solve the problems by using numbers, pictures or number bonds.**

1. Daniel has 500 tickets. He gave to his agents to sell them. The agents sold 400 tickets. How many tickets have left with the agents.

   Tickets with Daniel = _____

   Number of tickets that agents sold = _____

   Remaining tickets that were not sold = _____ − _____ = _____

<p align="center">(OR)</p>

Tickets with Daniel (500)

Tickets sold (400)

<p align="center">(OR)</p>

500 → Tickets with Daniel

400 — Tickets sold

Not sold
