

NAME _____

DATE _____

ADDITION OR SUBTRACTION

Solve each problem using two different strategies.

1) $698 + \underline{\quad} = 945$

1st strategy:

$945 - 698 = \underline{\quad}$ is the same as $899 - 652$.

H	T	O
8	9	9
6	5	2

Note: Subtract 46 from both numbers.

2nd strategy:

$698 + \underline{\quad} = 945$

$$698 \xrightarrow{+100} \underline{\quad} \xrightarrow{+100} \underline{\quad} \xrightarrow{+40} \underline{900} \xrightarrow{+5} \underline{945}$$

$= 100 + 100 + 40 + 5 + 2$

$= 200 + 40 + 7$

$= \underline{\quad}$
