EXPANSION OF NUMBERS

Expand the numbers according to their place values.
Example:

Expand 585. How many hundreds, tens and ones it has?

$$585 = \underline{500} + \underline{80} + \underline{5}$$

__5__	__8__	__5__
Ones	Tens	Hundreds

1) Expand 467. How many hundreds, tens and ones it has?

$$467 = \underline{\quad} + \underline{\quad} + \underline{\quad}$$

_____	_____	_____
Ones	Tens	Hundreds

2) Expand 872. How many hundreds, tens and ones it has?

$$872 = \underline{\quad} + \underline{\quad} + \underline{\quad}$$

_____	_____	_____
Ones	Tens	Hundreds

3) Expand 616. How many hundreds, tens and ones it has?

$$616 = \underline{\quad} + \underline{\quad} + \underline{\quad}$$

_____	_____	_____
Ones	Tens	Hundreds

4) Expand 204. How many hundreds, tens and ones it has?

$$204 = \underline{\quad} + \underline{\quad} + \underline{\quad}$$

_____	_____	_____
Ones	Tens	Hundreds
