# PROBLEM SOLVING

Solve the following problems using ones, tens and hundreds.
Example:

George has a book stall. There are number of note books in the shop. The school manager Kunchin approached to the shop and bought 100 pages note books, totally 700 tens, How many 100 pages note books are equal to 700 tens note books.

We know that - 10 tens = __1__ hundred = ⭕100

100	100	100	100	100	100	100	100	100	100	= 100 tens.
100	100	100	100	100	100	100	100	100	100	= 100 tens.
100	100	100	100	100	100	100	100	100	100	= 100 tens.
100	100	100	100	100	100	100	100	100	100	= 100 tens.
100	100	100	100	100	100	100	100	100	100	= 100 tens.
100	100	100	100	100	100	100	100	100	100	= 100 tens.
100	100	100	100	100	100	100	100	100	100	= 100 tens.

__70__ 100 pages note books are equal to 700 tens note books.   **700** tens.

----

1) There are 1 hundred marble bottles neatly arranged in a cup-board. The total marbles are 200 tens. How many hundred marble bottles are equal to 200 tens.

We know that - 10 tens = ___ hundred =

100	100	100	100	100	100	100	100	100	100	= 100 tens.

= 100 tens.

____ one hundred marbles bottles are equal to 200 tens.
