# COUNTING NUMBERS IN GROUPS

## Problem solving questions.

1. The circus manager wants to have Rs. 600 by selling tickets to the children in the school. How many more children need to have to get the tickets.

**Note:** (The cost of the ticket Rs 10. Explain your answer using words, pictures or numbers).

Required amount Rs 600.

The cost of each ticket Rs 10.

Number of children need to have buy \_\_\_ tickets.

 = \_\_\_ tickets for  
 Rs \_\_\_\_\_.

 = \_\_\_ tickets for  
 Rs \_\_\_\_\_.

 = \_\_\_ tickets for  
 Rs \_\_\_\_\_.

 = \_\_\_ tickets for  
 Rs \_\_\_\_\_.

 = \_\_\_ tickets for  
 Rs \_\_\_\_\_.

 = \_\_\_ tickets for  
 Rs \_\_\_\_\_.

\_\_\_ tickets + \_\_\_ tickets + \_\_\_ tickets + \_\_\_ tickets + \_\_\_ tickets + \_\_\_ tickets  
 = Rs \_\_\_\_.

\_\_\_ tickets = \_\_\_\_\_ Rs.
